

## 2004 Town of Wright Fire District New Fire Station

This project consisted of site plan and building design of a wood frame, Pre-Engineered Fire Station facility for the Town of Wright Fire District. Engineering services were provided for all phases of the project as follows:

- ◆ Preliminary Site Evaluation & Facility Design
- ◆ Final Design and Specifications
- ◆ Preparation of Opinions of Costs
- ◆ Bidding & Bidding Assistance
- ◆ Construction Administration & Observation

The major components of the project included the following:

- ◆ Site Evaluations and Planning with Fire District
- ◆ Site Plan Development & Facility Design
- ◆ On-site Wastewater and Water System Design and Coordination with Schoharie County DOH
- ◆ Site Grading and Drainage Design
- ◆ Project Coordination with Fire District and Contractors
